Activities temporarily suspended

Dear members of the community;

Due to the hopefully temporary lesser condition of one of the founders of TAK, we are forced to suspend the activities that we normally organize throughout the year.

The very intensive rehabilitation process that Walter is in requires more energy than we expected and certainly hoped.

As a result, we had to decide to suspend the Garden Market - which we wanted to organize again on Easter Monday - and the Sports and Game Day - which would fall on Wednesday 14 June.

Partly due to the time we put into rehabilitation, we see no chance to support others who might want to pick it up.

We all hope that after the summer we will be ready to slowly resume activities to see if we can do something in the second half of the year.

We will keep you informed and hope for your understanding of this situation.

Co-directors of Team Activities Kastelenbuurt
